# ABOUT US

Demerg Systems India (DSI) is a recognized company in Goa in the field of IT.

In operations since 2004, we are actively into **Web development, Enterprise Software Solutions and Document Management Services**. We are an empaneled agency with DOIT govt of goa.

It does not matter how big or small your problem is. We will do whatever it takes to provide the most optimum and cost effective solution.

We have also established a strong competence in Document Management. To better manage this we have created a separate division to focus on this side of the business.

With Demerg Systems at your side, you will be confident not only of an excellent product at the end of the day but also of a strong business partner.

We're in It Together.

Our clients are our partners. Our goals are very similar to our clients – improving performance and building a competitive edge.

Demerg Systems – Your Solutions Partner!

## OUR KEY STRENGTHS

**Return On Investment (ROI):** Measurable Success. Our focus is to improve company performance wherever we can. Our plans to our clients demonstrate quantifiable ROI.

**Our Guiding Principle:** *adding Value.*

Our fundamental driving principle is to add value to client's enterprise. Our mantra is simple: understand the clients' needs and provide them with real value.

### 3 level Quality Assurance

Every completed project is subjected to an independent quality check. This check is done online and documented for audit trail.

# INDENT MANAGEMENT SYSTEM *is* e-PROCUREMENT

*“Conventional means of material procurement are inconvenient & time consuming”*

**IT's QUICK &  
CONVINIENT**

**ONLINE INDENTING  
OF MATERIALS  
ALLOWS FOR  
FASTER  
PROCUREMENT  
AND TIMELY  
DELIVERY**

Indent Management System (IMS) is a complete solution in e-procurement process. It allows for online ordering, complete tracking and management of goods, services, resources ordered & in stock or out of stock items.

Manage Stores, Materials and in a comprehensive and smart fashion.

# WHY YOU NEED an INDENT MANAGEMENT

*“Conventional item procurement in a workplace is rated as a major cause of inefficiency”*

## Advantage in Online System

- E-procurement eliminates paperwork, rework and errors.
- Access via Internet & Intranet applications
- 24/7 availability to the records.
- Centralized tracking of transactions enables full reporting on requisitions, items purchased, orders processes.
- Reduced Cost through structured supplier relationships and while improving quality and supplier performance.
- Standardized workflows ensure that the correct level of authorization is applied to each transaction and that spend is directed to draw off existing contracts. robust Document management system
- Improved Efficiency in Management and staffing.

## Disadvantages of Manual System

### Labor-Intensive & time consuming

A disadvantage of manual indent systems is that they can be highly labor-intensive to operate.

The time spent monitoring indent levels could be used on more productive activities for the business.

### Human Error

A manual indent system relies heavily on the actions of people, which increases the possibility of human error.

People might forget to record a transaction or simply miscount the number of goods. Inaccurate physical counts could also result in not ordering enough of a product, meaning the business could run out of a crucial item at the wrong time.

# ABOUT IMS SOFTWARE

*"Indent Management is how your organization store, Manage and tracks material procurement & supply."*

**An IMS revolves centralized web based software that is designed to manage the storage of indent that is of value to the enterprise and more importantly to for timely supply and stock.**
